1.1. Planning Tool (Access) – Steps of Development

Functions (/Requirements)

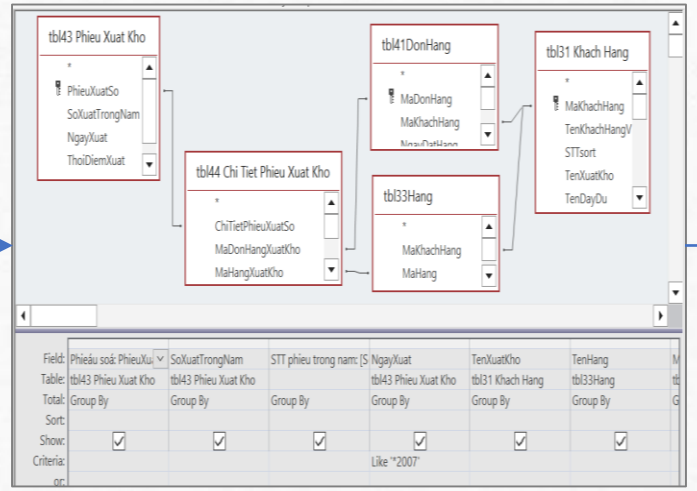

1. Master data (customer, item, machine, …)
2. Orders
3. Production Job
4. Planning schedule
5. Production output
6. Delivery note

Build tool:

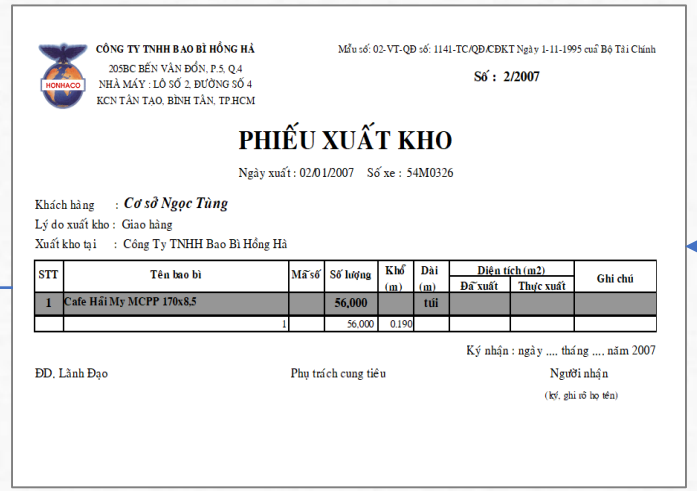

1. Analyze requirements
2. Design database
3. Create tables
4. Create queries
5. Design forms
6. Code VBA (macros)
7. Design reports

Deploy & Operate tool:

1. Entering data
2. Reporting

CÔNG TY TNHH BAO BÌ HỒNG HÀ
205BC BẾN VÂN ĐỒN, P.5, Q.4
NHÀ MÁY : LÔ SỐ 2, ĐƯỜNG SỐ 4
KCN TÂN TẠO, BÌNH TÂN, TP.HCM

Mẫu số: 02-VT-QĐ số: 1141-TC/QĐ/CĐKT Ngày 1-11-1995 của Bộ Tài Chính

Số : 2/2007

PHIẾU XUẤT KHO

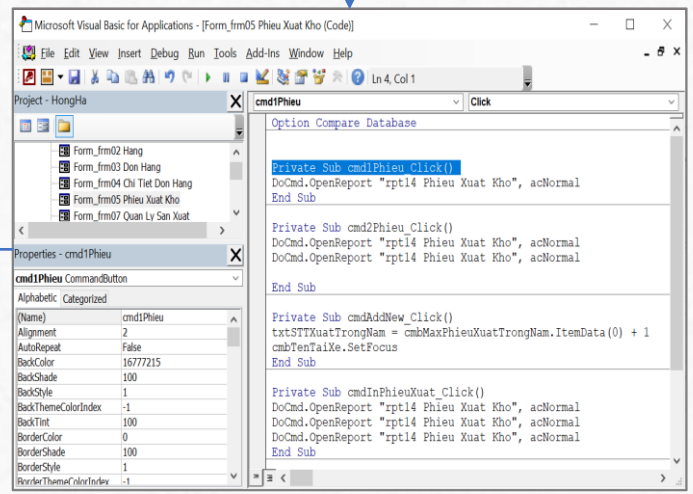

Ngày xuất : 02/01/2007 Số xe : 54M0326

Khách hàng : *Cơ sở Ngọc Tùng*
Lý do xuất kho : Giao hàng
Xuất kho tại : Công Ty TNHH Bao Bì Hồng Hà

STT	Tên bao bì	Mã số	Số lượng	Khổ (m)	Dài (m)	Diện tích (m2) Đề xuất	Diện tích (m2) Thực xuất	Ghi chú
1	Cafe Hải My MCPP 170x8.5		56,000		túi			
		1	56.000	0.190				

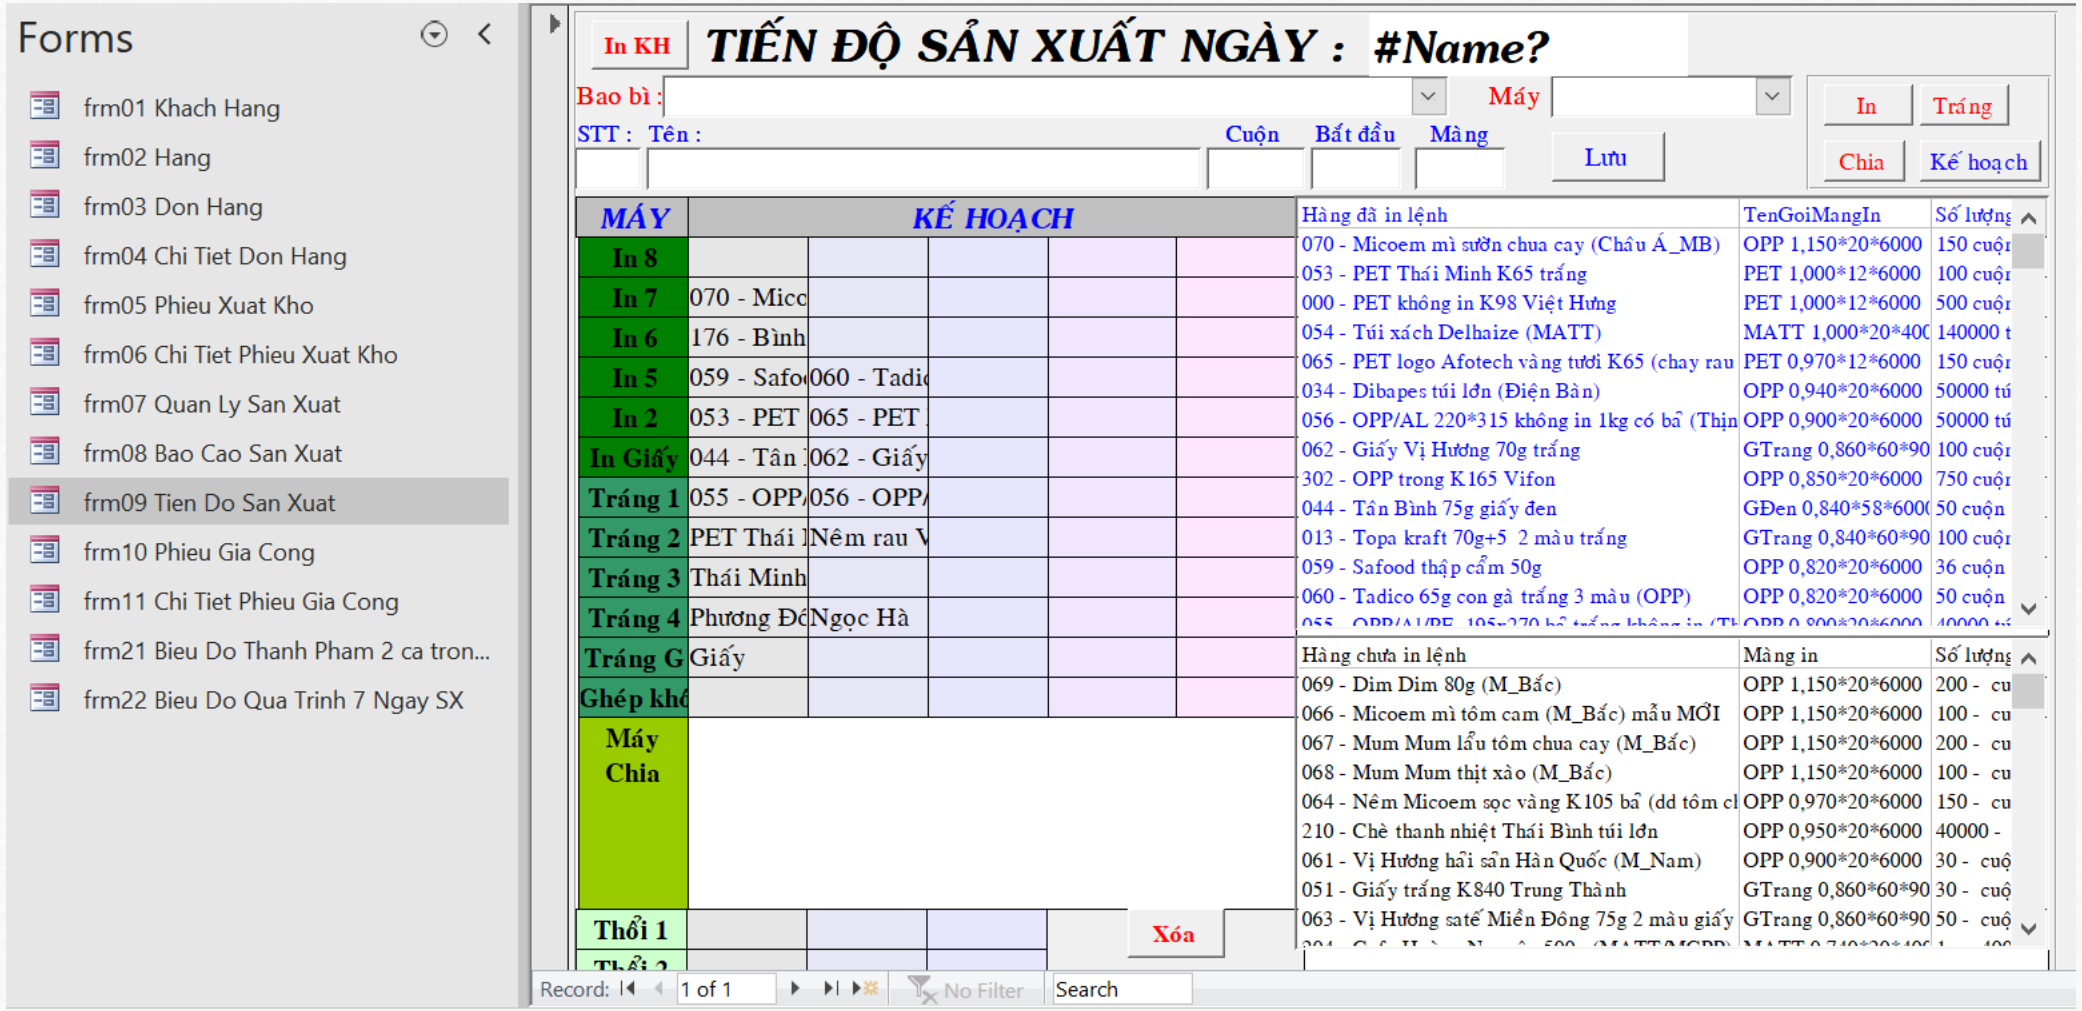

Ký nhận : ngày ..., tháng ..., năm 2007

1.1) Planning Tool (Access) - Forms

Entering operation data in forms, for example, to plan manufacturing schedule in the below form :

1.1) Planning Tool (Access) - Reports

Choose a report to preview and print, for example, to view the manufacturing schedule in the below report:

1.2. MRP – Steps of Development

Mangement Modules:

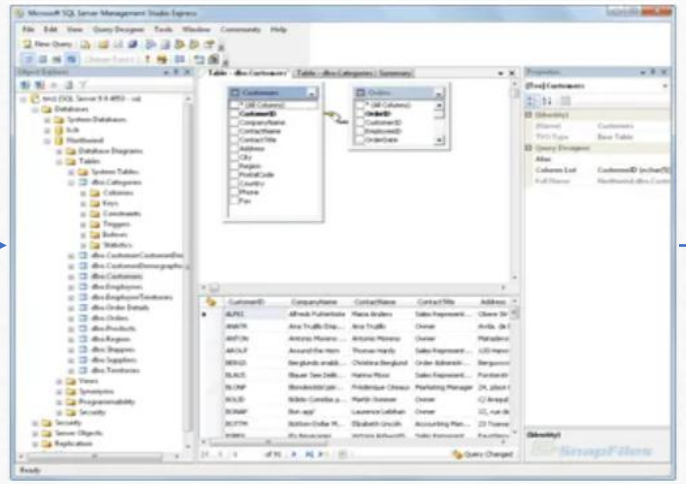

1. Master data (customer, item, employee, tool, machine …)
2. Sales
3. Purchase, Stock
4. Production
5. Quality
6. HR
7. Accounting

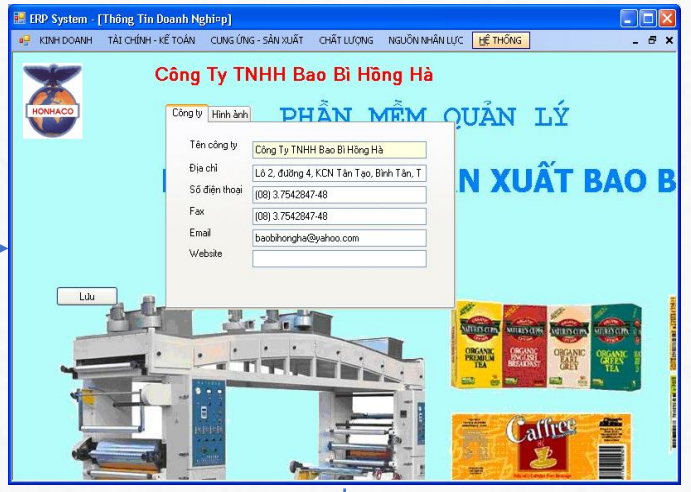

Build:

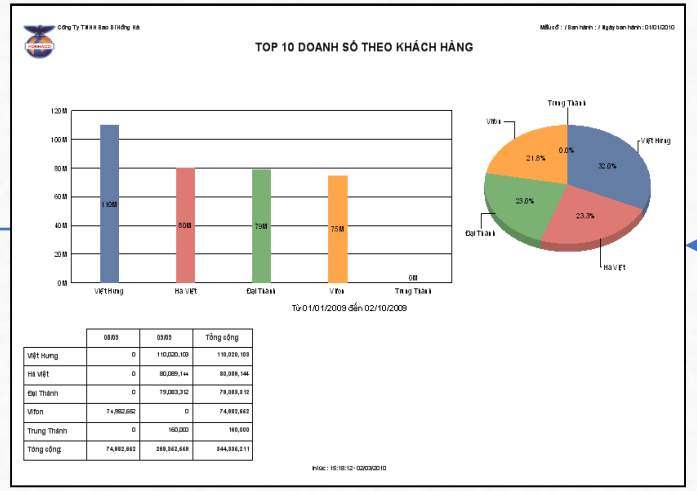

1. Analyze requirements
2. Build database (table, view, SP, ...)
3. Develop forms
4. Develop reports
5. DB Admin

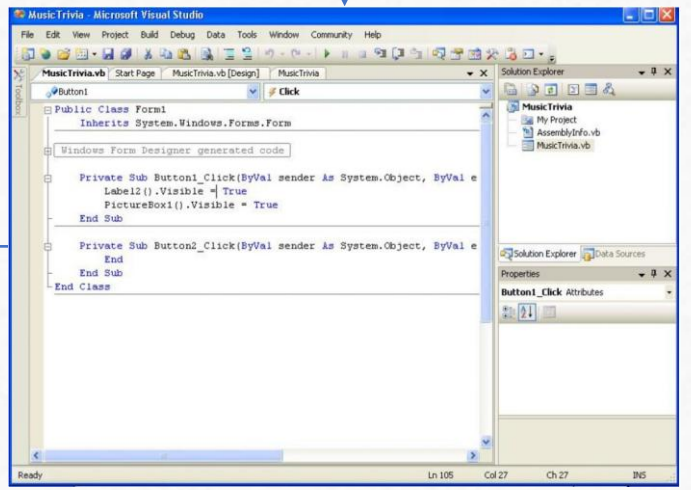

Deploy & Operate :

1. Install & Train using
2. Control & Support

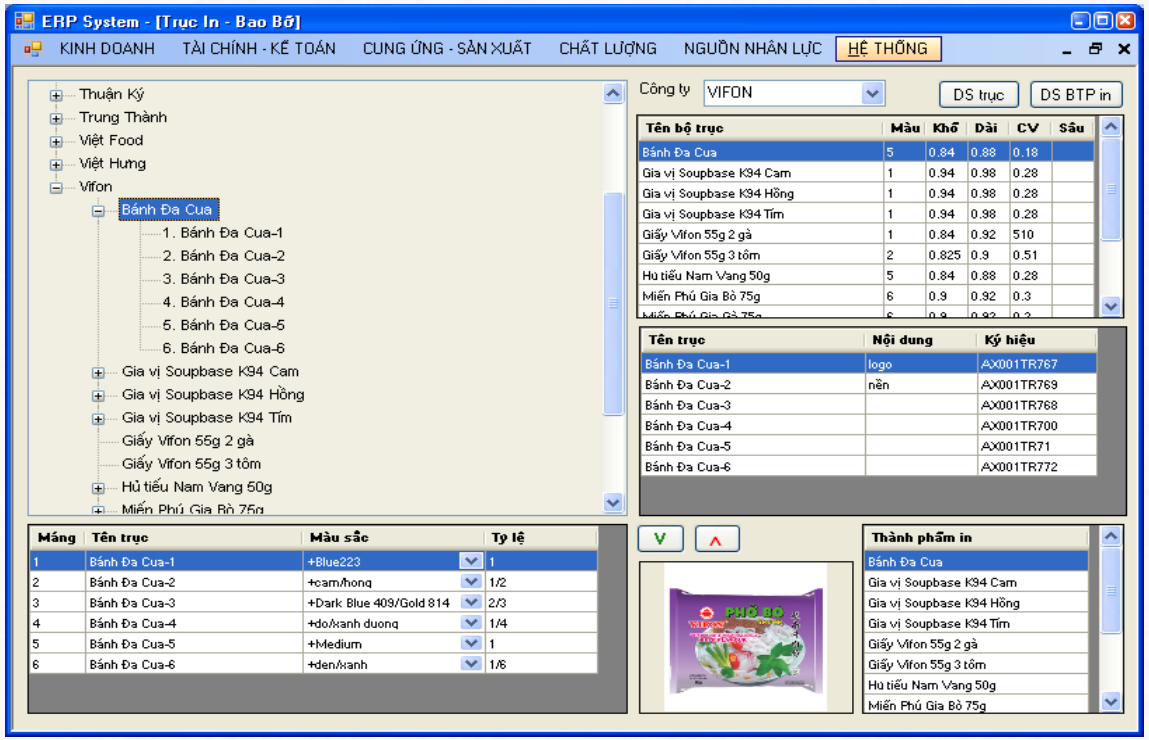

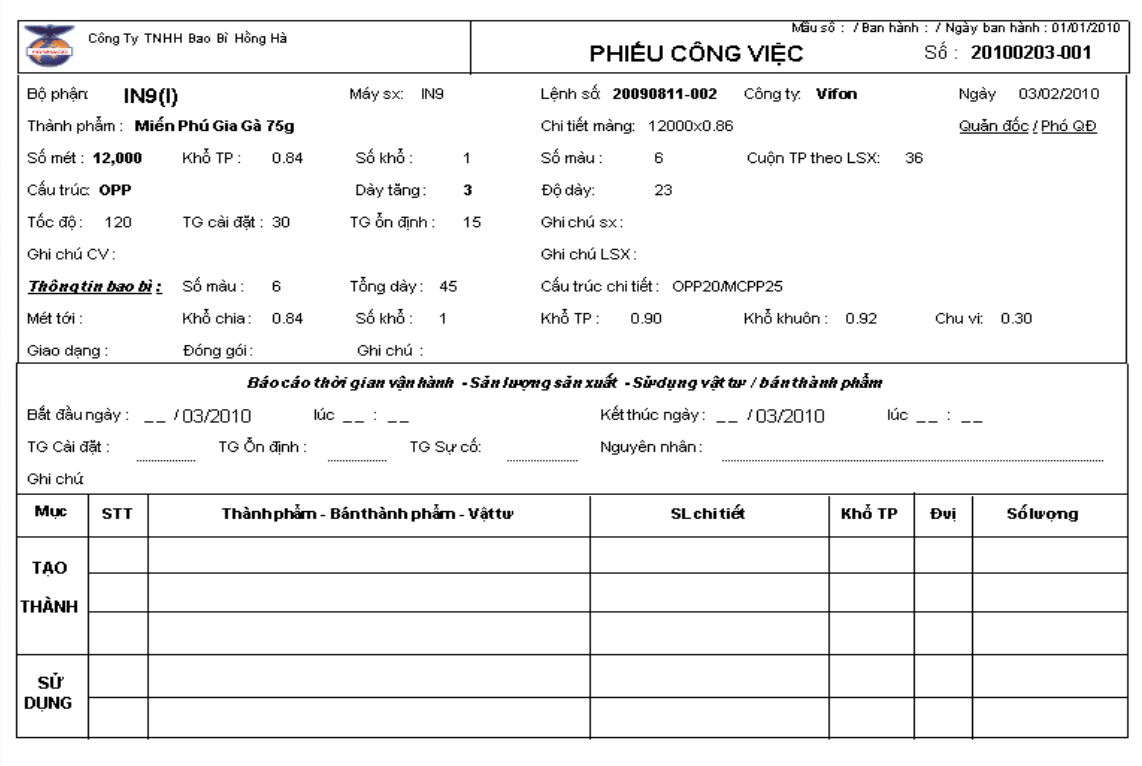

1.2. MRP – Variants of the Item

A pack has a main color, such as green, blue, or red, in a collection of a brand. Each of the collections is a variant, which is different from others in color or size. We'll plan variants of a brand to produce continuously in the same line.

1.2. MRP - Production Schedule and Gantt Chart

In each of the steps of production, there are some critical details to arrange. It depends on color, length, width, thickness, or material type to automate appending to a sequence list. The planning is reviewed in a Gantt chart to assign.
